

**The Global Leader
in Secure Digital Communications
and Fiber Optic Solutions**

FiberPlex provides a completely unaltered, seamless transport of data and safeguards the transmission of the most critical and sensitive information

**FiberPlex leverages the benefits of fiber optics
for connectivity applications including :**

- Distance
- Bandwidth
- Security
- Noise Immunity
- Isolation
- Sustainability
- Total Cost of Ownership Savings

Applications and Solutions:

- SCIF/ TEMPEST Enclosures
- EMC and RF testing
- MRI/ Medical
- Extend the useful life of legacy equipment by porting to fiber
- Transparent, safe and quick data transmission
- Noise Immunity and Containment : EMI/RFI isolation and noise rejection
- Fiber conversion

Markets : industrial, government, military, defense, intelligence and broadcast.
